How Do Credit Reference And Fraud Prevention Agencies Use Your Data?

When you apply to us for a loan, we will check the following records about you (and others where applicable):

- Any records we may already have about you;
- those held by Credit Reference Agencies ("CRAs"); and
- those held by Fraud Prevention Agencies ("FPAs").

CRAs supply us with public information (including from the electoral register, county court judgements and bankruptcies registers) and shared credit and fraud prevention information, including information about previous applications and the conduct of accounts in your and your financial associate(s)' name(s).

You should be aware that whether or not your loan or savings application is successful, when CRAs receive a search from us they will place a soft search footprint on your credit file that may be seen by other lenders. Large numbers of applications within a short time period may affect your ability to obtain credit. This is applicable whether your application is accepted or declined.

We will send the information that you submit through our website to CRAs. This information will be recorded by them. We and other organisations may access and use this information to prevent fraud and money laundering and CRAs and FPAs may use your information for statistical analysis. Information held by CRAs and FPAs will be disclosed to us and to other organisations in order to (for example):

- prevent fraud and money laundering and to check and assess applications for credit, credit related facilities or other facilities;

- recover debts that you owe and trace your whereabouts;
- manage credit accounts and other facilities and decide appropriate credit limits;
- verify your identity;
- make decisions on credit and other facilities for you or your business;
- check details on proposals and claims for all types of insurance; and
- check details of job applicants and employees.

When you borrow from us, we will give details of your loan and how you manage it to the CRAs. If you borrow and do not repay in full and on time, the CRAs will record the outstanding debt and, in some cases, the length of time that the debt remains outstanding. Other organisations may see these updates and this may affect your ability to obtain credit in the future.

If you fall behind with your payments and a full payment or satisfactory proposal is not received within 14 Days of a "Notice of Default" being issued then a "Formal Demand" will be issued and a default registered on your Credit File with CRA's.

This information may be supplied to other organisations by CRAs and FPAs to perform similar checks and to trace your whereabouts and recover debts that you owe.

If you give us false or inaccurate information and we have reasonable grounds to suspect fraud or we identify fraud we may record this and may also pass this information to FPAs and other organisations involved in crime and fraud prevention including law enforcement agencies who may then access this information.

The Credit Reference Agency that we use is TransUnion LLC (formally Call Credit Information Group Ltd).

The Fraud Prevention Agencies that we use are TransUnion LLC (formally Call Credit Information Group Ltd) and CIFAS.

If you have any further questions about our use of Credit Reference Agencies or Fraud Prevention Agencies (or would like to receive details of these agencies) please email us at friends@mycommunitybank.co.uk or call us on 0203 375 0221.

How Do We Work With Fraud Prevention Agencies?

We undertake checks for the purposes of preventing fraud and money laundering, and to verify your identity before we make a decision about your application. These checks require us to process personal information about you.

We and fraud prevention agencies may also enable law enforcement agencies to access and use your personal data to detect, investigate and prevent crime.

We process your personal data on the basis that we have a legitimate interest in preventing fraud and money laundering, and to verify identity, in order to protect our business and to

comply with laws that apply to us. Such processing is also a contractual requirement of the services or financing you have requested.

Fraud prevention agencies can hold your personal data for different periods of time, and if you are considered to pose a fraud or money laundering risk, your data can be held for up to six years.

Consequences Of Processing

If we, or a fraud prevention agency, determine that you pose a fraud or money laundering risk, we may refuse to provide the services or financing you have requested, or to employ you, or we may stop providing existing services to you.

A record of any fraud or money laundering risk will be retained by the fraud prevention agencies, and may result in others refusing to provide services, financing or employment to you. If you have any questions about this, please contact us on the details above.
